

Internal documentation for evaluators

MISCE project

Mechatronics for Improving and Standardizing Competences in Engineering

Document: WP3 report

Workgroup for each competence

SCOPE

The objective of this brief document is to enumerate the configuration of each workgroup that worked on each technical competence that was finally selected to be handled during MISCE project. Table I summarizes the different workgroups.

All the developed work about the 12 competencies is included in the digital repository of the project website¹.

Table I. MISCE workgroup for each technical competence

No.	Technical competence	Workgroup (HEI)
1	Control engineering	UCLM (responsible); UPV
2	Working with machinery and specialized equipment	UNICA (responsible); UNICAS
3	Mechanical design	RzuT (responsible); UNICA; UMINHO; UNICAS
4	Automation technology	UNICA (responsible); UCLM; UNICAS; UPV
5	Robotics	UCLM (responsible); UMINHO; RzuT; UNICA;
6	Computer programming	UCLM(responsible); UNICAS; UNIZA
7	Mechatronics	UMINHO (responsible); UNICA; UCLM; RzuT
8	Programmable logic controller	UPV (responsible); UNICA; UCLM
9	Mechanical systems	UCLM (responsible); UNICAS; UPV
10	CAD software	RzuT (responsible); UMIHNO; UNIZA
11	Wind energy	UCLM (responsible); UPV; UNICA
